

SHAPING A MORE PRODUCTIVE FUTURE

Recent world events have made productivity, efficiency and modernization more important than ever in the Metals Industry. How can you protect performance and futureproof your business in the face of these mounting pressures?

RAMPING UP PRODUCTION

As businesses begin to get back on their feet, advice on how to ramp up production – what to check and test – will be crucial.

✓ SOLUTION:

Shell Virtual LubeAdvisor

- Book an appointment with one of Shell's technical specialists in Metals
- Discuss any lubrication or equipment challenge and get help
- Virtual equipment inspections through our digital glasses

ADAPTING TO THE 'NEW NORMAL'

Reduced workforces and social distancing will require more training to take place in a virtual environment.

✓ SOLUTION:

Shell LubeCoachAcademy allows you to:

- Develop lubricants-related knowledge and skillsets
- Educate new talent within your business
- Keep employees motivated and engaged through challenging times

EXTENDING YOUR EQUIPMENT'S LIFESPAN

Protecting your existing equipment as production increases is vital, with remote monitoring of equipment and digitalized solutions playing a greater role than ever before.

✓ SOLUTION:

Shell LubeAnalyst and Shell Remote Sense can:

- Offer predictive maintenance and oil monitoring services for existing oils and greases
- Uncover potential issues before they occur
- Provide live data and actionable equipment-based insights

PROTECTING YOUR BOTTOM LINE

COVID-19 has had an impact on all businesses. Doing more with less and maximizing the production of existing equipment will be critical to maintaining sustainable and successful operations.

✓ SOLUTION:

Shell LubeAdvisor can help you:

- Choose the right lubricant or grease for your specific needs
- Protect equipment and prevent unnecessary downtime
- Cost reduction programs through our comprehensive Lube Site Surveys

With increasing pressures and competing priorities, allow Shell Lubricant Solutions to be your end-to-end solutions provider. We have the technology, expertise and services to enhance your equipment investment, boost your productivity and protect your peace of mind.
