CHALLENGE

DS Movers was operating a mixed fleet including ERF and DAF trucks in wet conditions and high traffic with significant stopping and idling time. The company wanted **to extend the life of its grease whilst maintaining engine protection.**

SOLUTION

The Shell Lubricants team **recommended a switch to Shell Gadus S2 V220AD 2 as the ideal product for the application and operating conditions.**

OUTCOME

The new product enabled the company to extend its re-greasing intervals, reducing maintenance time and inventory management. This **increased the number of hours the trucks could run, delivering improved productivity across the fleet.**

VALUE

Based on reduced maintenance costs and consumables spend, the company has reported **estimated annual savings of US\$43,000.**

The savings indicated are specific to the calculation date and mentioned site. These calculations may vary from site to site and from time to time, depending on, for example, the application, the operating conditions, the current products being used, the condition of the equipment and the maintenance practices.
