

Shell & Jazz Fest Sustainability Program 2024

Avoided 153.12
Metric tons of CO₂ from the air

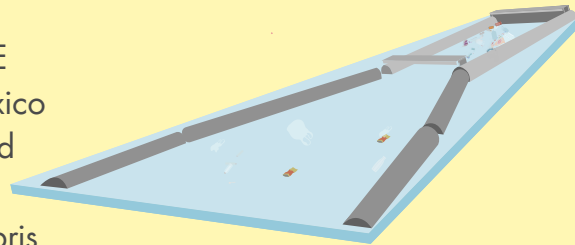

That's enough air capacity to fill about **7,109,849** regulation **29.5"** basketballs.

Local non-profits benefited*

Pontchartrain Conservancy and Barataria-Terrebonne National Estuary Program

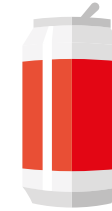

Help improve water quality in SE Louisiana and in the Gulf of Mexico by removing invasive species and deploying trash-capture devices to remove floating trash and debris across various regional waterways.

*Shell funded community projects equal to the fair market value of the materials recycled at Jazz Fest 2024.

99.57

Metric tons of recycling diverted from landfill

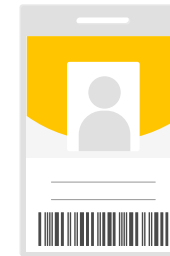

- 16 metric tons: cardboard
- 14.63 metric tons: cans/bottles
- 6.49 metric tons: hard-to-recycle plastics converted into pyrolysis oil
- 24.46 metric tons: concrete

181 Jobs created*

- 75 sustainability program
- 106 hosting program

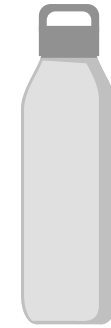

*2024 pre-production and 8 Festival days

9.48

Metric tons of food waste composted*

*2024 program led by WWOZ

16,744

Gallons of water used at refill stations

133,952

Single use 16oz bottles

21,113.87 lbs

of reclaimed cooking oil converted to fuel for shrimping boats
